Age: 30 years

Location: Dar es Salaam, Tanzania

PROFESSIONAL SUMMARY

Full-stack and mobile software developer with **5+ years of experience** building scalable web and cross-platform applications using **React, React Native, Node.js, and Python**. Proven track record delivering **production-ready systems**, including a football live score app with a fantasy gaming module (**2,000+ users**) and a **multi-country microfinance platform** used across 7 African markets.

Experienced in designing **RESTful APIs and FastAPI services**, implementing secure authentication systems, and integrating mobile applications with existing web platforms. Strong collaborator with cross-functional teams, focused on delivering **high-performance, user-centric solutions** that drive real business impact.

EDUCATION

Bachelor of Science in Computer Science

University of Dar es Salaam | 2017 - 2020

Advanced Level Secondary Education

Maji ya Chai Secondary School | 2015 - 2017

Ordinary Level Secondary Education

Msimbazi Secondary School | 2011 - 2014

Primary Education

Buguruni Primary School | 2004 - 2010

PROFESSIONAL EXPERIENCE

Software Developer

Firm23 Ltd | January 2021 – January 2025 (4 years)

- Contributed to the development of a football live score mobile application using React Native, Node.js, and Firebase, including a fantasy gaming module with 2,000+ active users
- Played a key role in building a microfinance (loan management) web application used by Tata-affiliated companies across 7 African countries (Tanzania, Kenya, Zambia, Senegal, Nigeria, Ghana, and South Africa)
- Implemented multi-country authentication and access control systems, ensuring secure and scalable user management across different regions
- Developed and integrated RESTful APIs to support real-time data processing and seamless communication between frontend and backend systems
- Collaborated with cross-functional teams to deliver scalable, production-ready applications across both mobile and web platforms
- Participated in multiple software projects, contributing to system architecture, feature development, testing, and deployment

Freelance Mobile App Developer

Zeal Tech & Intelligent Solutions | February 2025 – October 2025

- Developed a cross-platform mobile application for parents and guardians, integrating with an existing web-based school management system
- Collaborated with backend/web developers to ensure seamless API integration between mobile and web platforms
- Implemented key features including student performance tracking, attendance monitoring, announcements, and homework updates
- Implemented real-time notifications using Firebase Cloud Messaging to enhance communication and user engagement
- Delivered a user-friendly and responsive mobile interface, improving accessibility for parents and guardians
